Working together to give you a better choice in food safety training and certification!

Anyone who works in the food industry knows how critical an issue it is for food handling and safety protocol to be followed. Yet food borne illness continues to attract attention on a global stage. Prometric, Mindleaders and the National Environmental Health Association (NEHA) have joined forces to combat this issue by partnering to provide stronger, richer manual content, -- fast, reliable online training -- and secure test delivery services.

This world class partnership of experts brings together three unique strengths to provide you with one premiere food safety training and certification program. Our recipe for success takes NEHA's expertise in up to date content and training materials, Mindleaders easy to use online capabilities and Prometric's Certified Professional Food Manager (CPFM) Exam to provide a comprehensive solution that addresses the full lifecycle of food service industry professionals.

A full-color CPFM manual is available in both Spanish and English and is complete with photographs, charts, graphs, a "terms to know" listing in each chapter and assessment exams after each lesson. If you need more than just the manuals, the full proctor training kits include an Activity Guide, Trainer Guide and Syllabus, Reference Documents and a Power Point Presentation. The Prometric Food Safety Program is accredited by the American National Standards Institute (ANSI) and recognized by the Conference for Food Protection. The training materials and exam are based on the U.S. food Code. In addition, this complete food safety program is available to food service industry trainers, managers and

employees for significantly less money than competing options.

You also have the same options for fast and easy ordering; the call center can be reached at 800.624.2736, you can fax the exam order form to 800.347.9242 or you can send an e-mail to examorders@prometric.com. You can obtain the new materials and exam item list on Prometric's food safety website at www.prometric.com/foodsafety. For more information you may also visit the Mindleaders website www.mindleaders.com/foodsafety/ or the NEHA website at www.neha.org.

Want to learn more about the Certified Professional Food Manager program or the partnership to strengthen awareness of food safety in the U.S.? We'll be at the NRA Show (Chicago IL) May 22-25 2010 and the NEHA Conference (Albuquerque NM) June 6-9, 2010. We hope to see you there!
